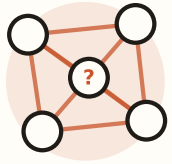
Onboarding today

five ways it quietly breaks

superjoin



Scattered across teams

HR, IT, payroll and facilities each chase their own list

→ One live tracker

Wrong paperwork, found late

Expired or mismatched IDs surface days after upload

→ Checked on upload

Day one, nothing ready

Email, access, desk and payroll set up by hand

→ 10 services run for you

A change means rework

New date or role? Access is fixed by hand, or forgotten

→ Auto-updates, auto-revokes

Questions and approvals stall

The same questions to HR, approvals buried in inboxes

→ Answered on WhatsApp
